

## PRESS RELEASE

### FOTOGRAFARE IL PARCO: THE WINNERS OF THE 16TH EDITION ON DISPLAY AT THE FORT BARD

*The winning photographs on display at the Fort Stables from 26 March to 26 April 2023*

The Stables of the Fort Bard (AO) will display, from 26 March to 26 April 2023, the winning and mentioned photographs of the 16th edition of the international nature photography contest “Fotografare il Parco”, organized by Gran Paradiso, Stelvio, Abruzzo, Lazio e Molise Italian National Parks, and de la Vanoise French National Park, with the patronage of Alparc, Federparchi and the participation of the media partner “La Rivista della Natura”.

The four protected areas are divided by hundreds of kilometres, but they are together in the aim of preserving a heritage of biodiversity that is unique for its beauty and richness. They thus want to continue the cultural path for nature images that they have undertaken so far.

The images on display show the landscapes and inhabitants that you can meet within the four protected areas: the chamois struggling for survival in the mountains, the slow flow of night clouds above the rocky mountains, the delicate opening of buds in the forest at the end of winter. There is more: wide views, animals, and plants.

The images will allow you to witness instants of life in our mountains: moments that, without the attentive gaze and quick reflexes of the photographers, could be missed. For a moment, the world of nature opens to our eyes with all its beauty.

Entrance to the exhibition is included in the admission ticket to the Fort. The exhibition can be attended during the fort's usual opening hours: Tuesday to Friday (from 10.00 a.m. to 7.00 p.m.); Saturday, Sunday, and holidays (from 10.00 a.m. to 7.00 p.m.). Closed on Mondays. Special openings: Monday 10 and Monday 24 April.
