

Green Infrastructure goes business award

apply now!

Open for submissions
15 November 2021 – 15 January 2022

The EU Strategy for the Alpine Region (EUSALP) launches a **new innovation competition to support Green Economy.**

We are looking for **innovative and sustainable ideas, products, services and business models**, which have a positive impact on Green Infrastructure (GI) in the Alpine Macroregion: e.g. nature conservation, ecological restoration, sustainable farming and forestry, green tourism or awareness raising for nature, landscape and biodiversity.

What is Green Infrastructure?

Green Infrastructure is a network of natural spaces with high ecologic quality, delivering services to society and economy.
