

Renovated walking trail through landscape park Logar valley

The restored themed trail preserves the former content and inspires visitors with new tips to experience one of the most beautiful valleys in the Alps.

The trail runs along the road and crosses it several times, thus offering several possible starting points for walking along shorter sections of the trail. For people in wheelchairs and prams, there is a part of the trail, that leads to the Palenk waterfall, as well as a shorter circular section of the trail next to the mountain hut Dom planincev.

The content of the boards, mobile app "The pure power of nature" and guided tours through the landscape park shows the exceptional natural features and the consciousness of the locals who have harmonized their lives with nature. A walk through the most beautiful corners of the Logar valley; from the source of the Črna river to the Rinka waterfall also attracts visitors to discover historical and ethnological features.

The locals and the managers of the trail are inviting you to take a walk through the natural-ethnographic trail in Logar valley. It will take away different images from you at any time of the year. You can meet a different story, a song or a warm handshake at every step. The content of the trail emphasize the thought: **"The Logar valley is not here to be changed, but to change us."**
