(European Regional Development Fund)

The project „Harmonization and optimization of the management of NATURA 2000 sites in the cross-border natural geographic region lower Oder valley is the result of a long lasting cooperation between the German and Polish conservation areas in the lower Oder valley.

A concrete realization of projects in the fields of nature conservation, ecotourism, environmental education and regional development takes place in a joint project on the German and the Polish side of the lower Oder valley.

The project is being realized in the Euro Region Pomerania as a part of the program Interreg IVA.

UNIQUE LOWER ODER VALLEY

Agenda for the International Conference

# Cross-Border Protected Areas in Europe

Schwedt/Oder

From 27th to 29th of November 2012
